collected in February 1964 Sibley I-1 through I-54

Sibley, F.
1964

Invertebrate Catalog

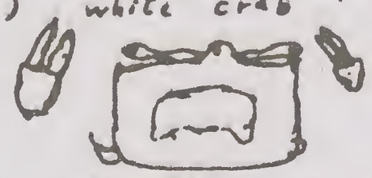
Feb. 8 — Howland Island, Pacific Ocean

I-1 (2 spec.) Shore crab — "collected on rocky beach"

I-2 (4 spec.) small sp? Hermit Crab. — "collected in interior areas"

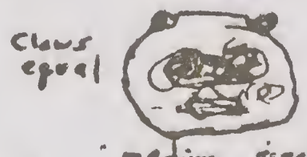
I-3 (1 spec.) small white sand crab — "collected on sandy beach"
probably same as I-4 "ghost crab"? "

I-4 (4 spec.) medium size white crab — " collected on sandy beach"



purplish underparts or at least mouth area

I-5 (2 spec.) brownish land crab — "collected in the interior of island on low herbs"



brownish mottling on back

I-6 (3 spec.) medium sized hermit crabs — "collected in interior of island"
reddish or reddish purple in color

all the above species are common to abundant in their habitat.

I-7 (1 spec.) small white crab — "collected on sandy beach"
like I-5 but white

Feb. 9

I-8 (1 spec.) small specimen land crab? — "collected under bunch grass"

I-9 (3 spec.) — " " " "

I-10 (1 spec.) small specimen sand crab — "collected on sandy beach"

I-11 (1 spec.) as I-4

I-12 (1 spec.) as I-5

I-13 (10 spec.) small rock crab — collected under rocks on reef.
black claws, purplish feet — some with eggs — maximum 1" across

I-14 (2 spec.) tiny hermit crabs — collected under rocks on beach

I-15 (1 spec.) small red rock crab — collected under rock on reef

I-16 (1 spec.) small gray rock crab - red legs "

I-17 (1 spec.) small brownish rock crab - very hairy legs" "

I-18 (2 spec.) reddish - red bands on legs white claws "

I-19 (1 spec.) larger I-17 "

I-20 (1 spec.) another I-13 "

Invertebrate Catalog

Feb. 10 — Howland Island, Pacific Ocean

I-21	(3 spec.)	small hermit crab - blue claws	collected under rocks on reef
Feb. 11 I-22	(3spec.)	purplish crab wide jaws	" " "
I-23	(1spec.)	white furry crab	"
I-24	(3spec.)	small - red bands shrimp	"
I-25	(1spec.)	small-small " shrimp	"
I-26	(2spec.)	small shrimp many fine black bands	"
I-27	(1spec.)	small crayfish gray	"
I-28	(2spec.)	small transpereat shrimp	"
I-29 I-30	(24spec.)	same as I-10	collected on sandy beach
I-31	(5spec.)	small brown crab.	collected under rocks on reef
I-32	(1spec.)	small knobby rock crab	same as I-36 "
I-33	(2spec.)	red spotted hairy crab	"
I-34	(3spec.)	small multicolored rock crab	"
I-35	(3spec.)	purple rock crab	"
I-36	(6spec.)	medium sized Knobby brown rock crabs	"
I-37	(2spec.)	same as I-33	"
I-38	(8spec.)	small grayish mottled rock crab	"
I-39	(10spec.)	2 species of hermit crab } some like I-21	"
I-40	(1spec.)	medium sized white rock crab	"
I-41	(2spec.)	small rock Crab - same as I-13	"
I-42	(1spec.)	mottled rock crab	"
I-43	(5spec.)	small gray rock crabs	"
I-44	(1spec.)	small orange mottled rock crab	"
I-45	(1spec.)	small white crab - red spot	"
I-46	(3spec.)	similar to I-45	"
I-47	(2spec.)	Knobby rock crab	"
I-48	(3spec.)	spidery rock crabs - blues & greens on back.	"
I-49	(3spec.)	Gray hairy rock crabs	"
I-50	(2spec)	same as I-44	"

1964

Invertebrate Catalog

Feb. 11 Howland Island, Pacific Ocean

I-51 (12 spec.) odds and ends left over — Collected under rocks on reef

I-52 (1 spec.) flatish hermit crab — Collected under rocks on reef

Feb. 12 I-53 (1 spec.) small transparent crab — "

I-54 (1 spec.) some I-26 — "

Feb. 22 I-55 (1 spec.) very hairy hermit crab — under rocks on reef D. Hank

I-55 should be Birnie Island, Pacific Ocean

Enderbury Island, Pacific Ocean

I-56 (1 spec.) same as I-55

I-57 (1 spec.) Large Lobster like crab.
collected in grove of Cordia near
center of island.

March 9 Pago Pago, American Samoa

I-58 (1 spec.) red banded Shrimp
Collected on rock in bay

I-59 (1 spec.) mossy crab → " "

I-60 (5 spec.) freshwater crayfish - on bottom

I-61 (1 spec.) " shrimp - free swimming

I-62 (1 spec.) " crab - on rocks
